50TH ANNIVERSARY

We have dared. We have started. We are on our way.

FIRST GENERAL MEETING ISSUE

PRESIDENT'S MESSAGE: With intense pleasure we publish this first issue of our NEWSLETTER. This is to announce to everyone within reading distance our birth as an organization dedicated to the highest of purposes. Our Newsletter will chronicle our plans, our thoughts and our feelings, but most importantly, our acts. Acts are what we are reasonably and ultimately measured by. Yet dreams, as someone wise said, "are the seedlings of realities.". Hopefully, as we the Philippine American Medical Association of Georgia proceed, our Newslester will be able to have a balanced presentation of dreams and of actualities.

We have dared. We have started. We are on our way.

Ludovico S. Villanueva, M.D.

GEORGIA GOVERNOR'S LETTER: Office of the Governor; Atlanta, Georgia 30334; June 2, 1976 -

Dear Friends: It is a pleasure for me to send greetings upon the first general meeting of the Philippine American Medical Association of Georgia this Saturday. // Through your membership with the Philippine American Medical Association of Georgia, you will contribute significantly to the State of Georgia. I know you are proud of the recent formation of the Association and its most worthy goals. // You have my best wishes for much success in your efforts to fulfill the objectives of the Association, which in turn will contribute to strengthening the bond of friendship which exists between the citizens of Georgia and the Philippines.

Sincerely, (Signed) George Busbee

During the luncheon which preceded the General Meeting, Governor Busbee's congratulatory letter to us was read by Doctor Villanueva.

ORGANIZING OFFICERS:

	January, 1976 - April, 1976	April, 1976 - June, 1976

CONGRATULATIONS TO PAMAG FROM THE MORILES FAMILY

PAMAG PRESIDENT CARLOS TAN

PRESIDENTIAL ADDRESS

It has been a whirlwind two years since I became the president of PAMAG. When Dr. Romy Moriles asked if I would consider being the next PAMAG president, I said I must think about it. Dr Romy Moriles and Dr. Cristine Villena Amurao assured me that it's a very easy job, with a lot of support from the members. All I have to do is approve stuff, so I said "Yes".

When we started planning for the medical mission which PAMAG does every two years to help our countrymen back home, it opened my eyes as to the amount of work that needs to be done. As the saying goes, behind every successful man is a woman. That saying is absolutely true because without the help of my wife Coree doing most of the footwork, and the full support of Romy and Cristine, we wouldn't have had a successful medical mission in Sta. Rosa, Laguna, Philippines conducted from March 2 to March 4, 2026 and Scientific Lectures on March 4, 2026. We helped hundreds of our kababayans medically and surgically.

At present, my main concern is the future of PAMAG even as we celebrate our 50th Anniversary. Our membership is getting smaller and numbers are dwindling. We need to let the younger generation take over and grow PAMAG back to its glory.

I am thankful that we were able to convince Dr. Claire Lorete Visitacion to become our vice president/president elect. I am hoping that she will carry the torch and get many younger Filipino doctors to join PAMAG. We should also try to recruit more nurses, physician assistants, medical assistants, and other ancillary medical professionals to become PAMAG members.

Tonight's celebration marks our Golden Anniversary. Let us continue this undertaking in helping our kababayans in the next 50 years or even 100 years. Mabuhay ang PAMAG and our homeland, the Philippines. And let us not forget to thank the United States of America for the wonderful opportunities given to us.

PAMAG Founder's Message
Philippine American Medical Association of Georgia

PAMAG Fortieth Anniversary Celebration
1976 – 2015

The Philippine American Medical Association of Georgia (PAMAG), founded on June 5, 1976, is the first statewide Philippine American organization in Georgia. Forty years have come and gone and first generation Philippine American physicians have produced their second and third generations, some of them physicians.

I greet you all most enthusiastically on this the 40th PAMAG Anniversary Celebration. Forty years ago, twelve Philippine American physicians participated in establishing PAMAG. Fifteen others intended to be present during the First General Membership meeting but somehow were unable to. A line by line reading and revision of the PAMAG Constitution and Bylaws were done and then adopted. The first elected PAMAG Officers were Dr. Ludovico Villanueva, President; Dr. Victor Bautista, Vice President; Dr. Samuel Torres, Treasurer; and Dr. Emiliano Quilala, Secretary. For a detailed account of the happenings during the early years of PAMAG's life and work, please read the book, *INITIUM: The Five Initial Years.*

The five original aims/ purposes of PAMAG were: 1) To create an awareness of the Philippine American physicians' presence in Georgia; 2) To promote the high level of medical competence of its members and to raise it through the development of continuing medical education (CME) programs; 3) To enhance its members' involvement in their particular communities in health and other civic matters; 4) To encourage greater knowledge of Georgia, its history, geography, culture, and continuing progress; and 5) To contribute to the presentation and enjoyment of Philippine American culture. These have been and continue to be achieved. For instance, for aim/ purpose number 5, PAMAG contributes 10% of its year-end funds to the Philippine American Center in Georgia, a cultural organization.

Two more aims/ purposes were added as PAMAG developed more capability: 6) To undertake medical/ surgical missions to the most indigent of indigents in the Philippines and in Georgia USA (about every two years since 1992); 7) To establish college scholarship and education programs to the most indigent of indigents in Georgia USA and in the Philippines. Both have been very successful. For example, one such medical – surgical mission involved some 80 missioners. Also some 20 students have already graduated from college, have become teachers, engineers, accountants, etc.

Forty years have come and gone and we trust that new members and new blood will come aboard the PAMAG vehicle for the second forty years. We are confident that the PAMAG leadership will continue to be visionary, resourceful, and committed to the aims and purposes of the organization. May God guide us as we all proceed.

Ludovico S. Villanueva, M.D.

PHILIPPINE AMERICAN MEDICAL ASSOCIATION OF GEORGIA

50TH ANNIVERSARY
1976–2026

A Golden Legacy of Service, Compassion, Diversity and Hope

Mabuhay from the peach-scented soulful southern state of Georgia!

As we celebrate the ***50th Anniversary*** of the ***Philippine American Medical Association of Georgia (PAMAG)***, we honor not only five remarkable decades of excellence but also the enduring spirit that has united generations of Filipino-American physicians in service to humanity. It is a testament to the unwavering commitment of our founders, leaders, members, and families who have dedicated their time to our non-profit organization. And it is with profound gratitude and great humility that I join this milestone celebration as your ***Vice President/President-Elect.***

Medicine has never been merely a profession – it is a calling. Through every decade, we have witnessed extraordinary transformations in healthcare in the form of groundbreaking innovation and remarkable scientific discoveries. We have also been challenged in unimaginable ways during the COVID-19 pandemic and the current economic and political storms. Yet amidst all of these, one truth has remained unchanged: our greatest strength has always been the compassion with which we care for every patient entrusted to us and for the community we lovingly serve.

Today, as we celebrate our Golden Jubilee, we also look ahead with optimism. Let us continue to embrace innovation while preserving the values that define us—faith, integrity, excellence, service, and compassion. May we remain steadfast in our mission to improve the lives of our patients, promote the health of our communities, and foster meaningful fellowship among Filipino-American physicians and allied health professionals. As a woman physician and leader, I am especially inspired by the growing strength, diversity, and leadership of women in healthcare. Together, we continue to break barriers, mentor future generations, and demonstrate that compassionate leadership has the power to transform lives and strengthen our profession.

To all our past presidents, officers, members, and partners, thank you for building a legacy that continues to inspire. Because of your dedication, PAMAG stands today as a beacon of professional excellence, cultural pride, and selfless service. As we commemorate this historic milestone, may the next fifty years be marked by even greater collaboration, innovation, and opportunities to serve. Together, let us continue to heal with our hands, lead with our hearts, and inspire with our actions.

Happy 50th Anniversary, Philippine American Medical Association of Georgia. May our legacy of service, compassion, diversity and hope continue to shine brightly for generations to come. Padayon!

Maria Clarissa "Claire" L. Visitacion, MD, MBA, FAAFP

Tan Family

In Loving Memory of

Dr. Cayetano Tizon Dizon

Oct 16, 1944 — Mar 7, 2026

He was a beloved husband, father, grandfather, brother, loyal friend

And PAMAG member…

Dr Grace Duque Dizon, his loving wife and former PAMAG President is creating a PAMAG Memorial Fund in his name to serve others as part of his living legacy.

Dr. Cayetano Dizon was born on October 16, 1944, to Encarnacion and Tomas Dizon in Capas, Tarlac in the Philippines. His childhood was filled with adventure - he rode motorcycles like a daredevil and was a speedster in a car. He attended the University of Santo Tomas in Manila, Philippines, becoming a medical doctor at the young age of 22. Hi did his internship at Mount Sinai Hospital in Baltimore, MD and his Anesthesia Residency at Albert Einstein Hospital in Philadelphia, PA, and it was there that he met his beloved wife, Grace Duque Dizon, also a talented Anesthesiologist. They married in 1974 in Wilmington, Delaware. Soon after, he completed a prestigious Anesthesiology Fellowship and served as an Assistant Professor at Yale University in New Haven, CT.

Dr. Dizon moved to Macon in 1978 and practiced at the Medical Center of Central Georgia for the entirety of his career. As a specialist in Cardiovascular Anesthesiology, he participated in innovations to open heart surgery.

Dr. Dizon survived leukemia in 2008. He retired from medicine at that time but never stopped being a healer.

He is survived by his brother Tomas Tizon Dizon Jr, many brothers-and-sisters-in-law, his devoted wife of 51 years, Dr. Grace Duque Dizon, his daughters Camille and Jeanie Dizon, his son-in-law Phil Britton, and his grandchild Casimiro Britton.

IN LOVING MEMORY OF

Armando Cinco Dijamco

July 26, 1946 – January 25, 2021

A father and a friend. A husband and a humanitarian. A doctor and a deep thinker. A traveler and a storyteller with a giant smile. A gardener and a great, great man.

A stalwart PAMAG member, the Dr. Armando Dijamco Memorial Lecture is a loving and living tribute to him, his memory and his legacy as a physician and a teacher.

Armando grew up in Manila, Philippines, the son of Jesusa and Dr. Gonzalo Dijmaco. Armando was the second oldest of seven siblings – often inquisitive, joking, leading the charge, and taking care of everyone, like how he'd rent out his comic books to help his family.

Armando graduated magna cum laude from the University of Santo Tomas (UST) with a Bachelor of Science degree. He received his Doctor of Medicine (MD) degree as the Valedictorian of the UST Medical School Class of 1970 (Magna Cum Laude) and took first place in the Philippine Medical Boards.

He also met the love of his life in UST a fellow student named Alice Ignacio Lachenal. They married in 1972 and were life partners for five decades, together creating what is Armando's greatest of many legacies -- their wonderful family.

He trained in Internal Medicine at the Cleveland Clinic and completed his Fellowship in Hypertension & Nephrology, becoming Board Certified in Nephrology in 1976.

They moved to Atlanta, Georgia where he practiced medicine until he retired. They raised their family of four children and in time, Armando would be blessed to become Lolo to his 13 grandchildren. Armando is survived by his beloved wife, Alice, son Armand "Jojo", daughters Arlene Botelho, Angeline DeLaurentis, Anne McGinty and all his in-laws and grandkids.
